

# 2-PC CANLINES

Experience the Force of Vacuum and Air

Canline supplies complete tailor-made systems on a turn-key basis or indeed anything in between e.g. part systems. We offer the whole range of services in can handling, in steel as well as in aluminium, from small conveying projects, individual components and spare parts, up to turnkey projects and regular service contracts.

- Canline's scope of supply in vacuum and air handling equipment runs from cupper to palletizer, including:
- Cupper discharge
  - Cup elevators (photo 1)
  - Cup and Can distribution systems (photos 2,3,9)
  - Washer infeed (photo 5)
  - Demisters (photo 5)
  - Washer - oven transfers
  - OBO discharge elevators (photo 6)
  - Fallen can eliminators
  - Air tables (photo 7)
  - Doubling box (photo 8)
  - Pin strippers
  - IBO outfeed elevators (photo 12)
  - Necker infeed (photo 13)
  - Necker and tester discharge elevators
  - Air-tracks
  - Track-work (photos 4, 10)
  - Converging rail single filers (photo 13)
  - Palletizer infeed elevators/lowerators

We equip our conveyors with components of your choice from proven suppliers, such as MZ or Euroventilatori blowers; Intralox, Rexnord or Habasit belts and SEW or Lenze motors. Because we have a firm belief that product support is as important as product quality.

Canline is proud of its ability to supply a complete range of services in vacuum and air technology, from components through to turnkey projects and maintenance contracts. As well as conversions from steel to aluminium and vice versa.
